PROFESSIONAL SUMMARY

Full Stack Developer experienced in building and maintaining web and mobile applications, enterprise platforms, and CRM systems. Works across the application lifecycle, from responsive interfaces and API development to database integration, cloud deployment, testing, and maintenance. Uses React, React Native, TypeScript, Python, PostgreSQL, and AWS to deliver practical, maintainable software for business and education use cases.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, PHP, Dart
Frontend & Mobile: React.js, React Native, Laravel, responsive UI development
Backend & Data: FastAPI, REST APIs, WebSocket, PostgreSQL
Cloud & Tools: AWS, Docker, Git, GitHub Actions, Sanity CMS
Practices: CI/CD, Agile development, microservices architecture, application testing, version control

PROFESSIONAL EXPERIENCE

Full Stack Developer | Herkings Corporation *November 2025 – Present*
- Develop and maintain web applications, mobile applications, CRM platforms, and enterprise systems using React, React Native, TypeScript, Python, and PostgreSQL.
- Build frontend features and integrate backend APIs, database workflows, authentication, and role-based access across business applications.
- Contribute to end-to-end delivery, including technical implementation, debugging, deployment, and ongoing maintenance using AWS and Git-based workflows.
- Work across projects involving membership and loyalty management, project and budget monitoring, and corporate or organization websites.

Cloud Intern | Macrologic Diversified Technologies, Inc. *July 2025 – August 2025*
- Led development of an internal IT Inventory Management System using Laravel, PHP, and React to improve asset tracking and workflow efficiency.
- Generated reports in Stellar Cyber to identify anomalies and support threat detection.
- Monitored MAISaaS (MIaaS Advanced Intelligent Surveillance as a Service) to support security coverage and protocol compliance.

SELECTED PROJECTS

COGNIFY | Mobile Learning App & Faculty Admin Portal — Thesis Project
- Developed a guided learning system with a student mobile app and faculty web portal, supporting personalized review, assessments, and progress tracking aligned with the PRC Table of Specifications.
- Received a 4.72 weighted mean rating under ISO/IEC 25010 and earned the Best Thesis Award.

PTrack | Project & Budget Monitoring Platform
- Contributed to a business platform for tracking project budgets, cash requests, liquidations, manpower, and materials through multi-level approval workflows.

Alianza PH | Membership & Loyalty Platform
- Develops and maintains a membership and loyalty platform with a companion mobile app, organization and merchant portals, subscription features, and points-related workflows.

Corporate & Organization Websites
- Built and maintained websites including herkings.com, lpm.psme.org, and pcci.laspinas.org.

EDUCATION

Bachelor of Science in Computer Science | Cavite State University
2022 – September 2026 | Magna Cum Laude
